CONCEALED CARRY

Is one of the biggest responsibilities you as a Law abiding citizen will ever take on.

Thinking of applying for a permit or already have one.

Can you be effective under severe stress?(hit what you shoot at).Statistics show that 50% of any training a person has is lost during a confrontation. How much is your 50%?

What is cover? What is concealment?

What happens if you use deadly force?(the aftermath)

Do you know the laws? Where you can and can not carry? Do you know your rights?

Is the intruder in your house at 1:00 am really a bad guy or a family member, or is he an Injured motorist looking for help?

Be responsible take the next step and get the proper training.

Our classes will certify you for your permit and help prepare you for the above and much more.
