

Don't Move a Mussel

Aquatic invasive species like **quagga mussels** and **zebra mussels** are small organisms that could have huge impacts for Wyoming's waters, boaters and anglers. They can ruin fisheries, clog cooling systems in motorboats, foul hulls and ruin equipment. These organisms have **not** been found in Wyoming **yet**, but are present in several bordering states.

Help protect Wyoming's waters by making sure you Don't Move a Mussel!

Follow These Simple Steps:

✓ **DRAIN** Eliminate all water before leaving the area, including wells, ballast and engine cooling water.

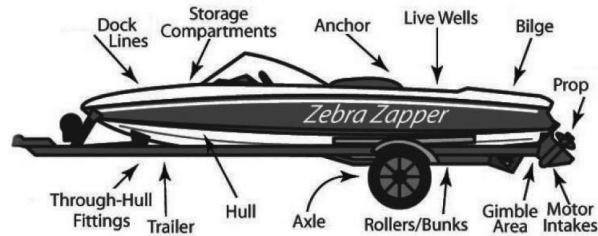

✓ **CLEAN** Remove all plants, animals and mud from equipment and boats. Thoroughly wash everything, including all crevices and other hidden areas.

✓ **DRY** Allow time for your boat and gear to completely dry before launching or recreating in other waters.

Each entrant assumes all risks and liabilities. The Pinedale Boat Club disclaims responsibility for any and all personal injury or other liability that might occur as a result of participation in this Derby.

Note to Participants:

The most common violations that are encountered by Wardens are:

- ✓ **No License** – Carry your valid Fishing License with you at all times while fishing.
- ✓ **No Conservation Stamp** – You have to carry this one too.
- ✓ **Possession / Creel Limit** – You are only allowed 1 fish over 20" in your possession. CAUTION: A fish you caught yesterday that is in your cooler or freezer still counts towards your possession limit!
- ✓ **Illegal Bait** – Such as game fish minnows or live minnows.
- ✓ **False Oath** – If you have lived in Wyoming for less than a year, you must have a non-resident license.
- ✓ **Using More Than 2 Poles**
- ✓ **Filleting Trout** – The head and tail must remain intact to be able to verify the trout meets length limits.

¹ Wyoming Game and Fish Regulations Chapter 46 Section 6 regarding creel limits reads in part, "... (b) Any fish caught that is not to be counted in the creel limit shall be immediately released to the water with as little injury to the fish as possible. Any fish placed on a stringer, in a container, in a live well, or not released immediately to the water, shall be considered to be reduced to possession of the angler. No fish that has been reduced to possession of the angler shall be released alive without prior written approval from the Department." This means that any fish entered in the Derby is "reduced to possession", can not be released, and counts towards the entrants creel limit.
