

Andy Nelson for Sublette County Commissioner

Respect Private Land Owner's Rights

Sublette county land owners have the right to use and develop the property they own. As a County Commissioner, I will support the property owner with their reasonable and responsible requests and work as a mediator as the need arises.

Care for Sublette County Residents

As a County Commissioner, I will lobby the state legislature to allow Sublette County to fund the Homestead Exemption Statute for residents with county funds. This property tax exemption will provide tax relief to Sublette County home and land owners without cost to the state.

Plan for the Future

Sublette County continues to grow and prosper. As a County Commissioner, I will labor diligently to assure that, 1) county capitol construction projects are approved only if long-term plans are in place to maintain them without undue burdens on the taxpayers, and 2) that county funded projects do not compete directly with private Sublette County businesses.

**Share your ideas and visions with me and together
we will actively guide the direction of our county.**
